## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-15 are allowed.

With respect to claim 1, applicant arguments presented *on page 6 the fourth paragraph* of applicant's response are found persuasive because the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show *"a high speed motor driven by a high frequency inverter, said high speed motor having a motor shaft in which the motor rotor is formed, and a third bearing for rotating and supporting the motor shaft, said first, second and third bearings being made the same with respect to each other"* in combination with the other claims limitations. Further, a terminal disclaimer has been filed for this application. Thus claim 1 and its dependent claims are allowed.

Independent claims 2 and 3 were previously allowed. Further, a terminal disclaimer has been filed for this application. Thus claims 2, 3 and its dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
